Election/Restrictions

1. Applicant's election of invention I in Paper No. 10 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Specification

2. The disclosure is objected to because of the following informalities:On page 10 line 20, the phrase "my be similar angled" is not understood. On page 17 line 8 does not correctly coorespond to figure 22, as according to the figure, arm 120 pivots on pin 111, not 132. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in-
- (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or
- (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).
- 3. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Lykken et al. (6,318,484).

Lykken et al. discloses a track assembly having all of applicant's claimed structure including a top tandem arm 102, and a bottom tandem arm 200. Lykken et al.
